03 OCTOBER 2026

TECHO STARTUP CENTER

HEADQUARTER

Business Development Center
OCIC Boulevard
Phnom Penh, Cambodia

Dear Hiring Manager,

I am writing to apply for the Full Stack Developer position at Techo Startup Center. I am a final-year Computer Science and Engineering student at ACLEDA University of Business, with practical experience in frontend and backend development, REST APIs, database integration, cloud deployment, and DevOps.

I have hands-on experience with Vue.js, Nuxt.js, React.js, Node.js, Express.js, TypeScript, Python, Java, Spring Boot, FastAPI, and Django. I also work with MySQL, PostgreSQL, Docker, Linux, Nginx, Git, GitHub, CI/CD, authentication, authorization, API integration, and software testing.

Through professional, freelance, academic, and personal projects, I have developed full-stack applications and strengthened my skills in problem-solving, debugging, software design, database management, API development, and system deployment. These experiences have helped me become more confident in building practical and reliable software solutions.

I am interested in joining Techo Startup Center because I would like to contribute my technical skills, collaborate with a professional development team, and continue improving as a Full Stack Developer. I am motivated to learn, take on new challenges, and contribute to useful technology projects.

Thank you for considering my application. I would appreciate the opportunity to discuss how my skills, experience, and motivation could contribute to your team.

Sincerely,
Kimheang Moeng

MOENG KIMHEANG

Full Stack Developer

[Portfolio Link] , [GitHub Link]

Final-year Computer Science and Engineering student and Full Stack Developer with hands-on experience building web, mobile, desktop, and AI-powered applications. Experienced with Vue.js, Nuxt.js, React.js, FastAPI, Spring Boot, Node.js, PostgreSQL, Docker, REST APIs, and cloud deployment. Strong foundation in backend architecture, database integration, API development, DevOps, and software testing.

EDUCATION

- **ACLEDA UNIVERSITY OF BUSINESS**

  Bachelor in Computer science and engineering

  2024-Current (year 4)

  Key Courses:

  - *Java Programming*
  - *Python Programming*
  - *Cloud Computing*
  - *Database Management Systems*
  - *Web Application Development*
  - *Data Structures and Algorithms*
  - *Entrepreneurship*

- **JUANG JING VOCATIONAL HIGH SCHOOL AT TAIWAN**

  Robotics Engineering

  2024-2025

  Key Courses:

  - *Robotics Programming*
  - *Electronics and Circuit Design*
  - *Microcontroller Programming*
  - *Automation and Control Systems*
  - *Mechanical Design*
  - *Sensor and Motor Integration*
  - *Industrial Robotics*
  - *Robot Assembly and Maintenance*

Skills

Programming Languages

- *Programming Languages: Java, Python, JavaScript, TypeScript, Kotlin, Dart, C#, C++, C, PHP*
- *Databases: MySQL, PostgreSQL, Oracle, Microsoft SQL Server, Access, SQLite, MongoDB*
- *Mobile Development: Kotlin, Dart, Flutter*
- *Core Concepts: OOP, Data Structures, Lambda Expressions, Generics, Asynchronous Programming*

FRAMEWORKS & TOOLS

- *Spring Boot — REST APIs and Microservices*
- *FastAPI — High-Performance Python APIs*
- *Node.js and Express.js — Backend API Development*
- *Nuxt.js, Next.js, Vue.js, React.js, Nuxt UI, and TypeScript*
- *Flutter and Kotlin — Mobile Application Development*
- *PyQt5 and PySide6 — Python Desktop Application*

BACKEND CONCEPTS

- *MVC and Layered Architecture*
- *Dependency Injection and Microservices*
- *Authentication, Authorization and API Security*
- *SQL and NoSQL Database Integration*
- *Validation, Error Handling and Logging*
- *API Testing and Documentation*
- *Component-Based UI Development*
- *Responsive Web Design*
- *State Management and API Integration*
- *Performance Optimization and Testing*

OTHER SKILL

- Mobile Application 82%
- Windows Application 90%
- Server Administration 95%
- Computer Networking 60%
- Cloud Computing 81%
- DevOps 93%
- Internet of Things (IoT) 71%
- Artificial Intelligence 76%
- Machine Learning 82%
- Data Analysis 86%
- Database Administration 95%
- Microsoft Office 97%
- Soft Skills 81%
- Self-Management 98%

WORK EXPERIENCE

- **GENERAL DEPARTMENT OF CUSTOMS AND EXCISE OF CAMBODIA**

  Full Stack Developer

  Junuary.2026 - November.2026

  Key responsibilities:

  - *Designed chatbot architecture and developed FastAPI services for chatbot and OCR features.*

API DEVELOPMENT

- *Designing and Building RESTful APIs*
- *JSON Data Processing*
- *Authentication and Authorization*
- *API Testing with Postman*
- *API Documentation with Swagger/OpenAPI*

DEVOPS

- *Linux Server Administration*
- *Docker and Kubernetes*
- *CI/CD Pipelines*
- *GitHub Actions*
- *Nginx and Reverse Proxy*
- *Cloud Deployment*
- *Infrastructure Monitoring and Logging*
- *Version Control with Git and GitHub*

AI & DATA

- *Artificial Intelligence and Machine Learning*
- *Data Analysis and Visualization*
- *Data Cleaning and Preprocessing*
- *Model Training and Evaluation*
- *Python for AI and Data Science*

PROJECTS

PROJECT1: SCHOOL MANAGEMENT SYSTEM

- ***Technologies Used**: Nuxt.js, Vue.js, TypeScript, FastAPI, PostgreSQL, Redis, Celery, Docker Compose and Nginx*
- ***Description:** Developed a full-stack school management system for managing students, courses, classes, enrollments, invoices, finance and administrative operations.*
- ***GitHub Repository:** https://github.com/Kimheang-code-IT/School-domnak*

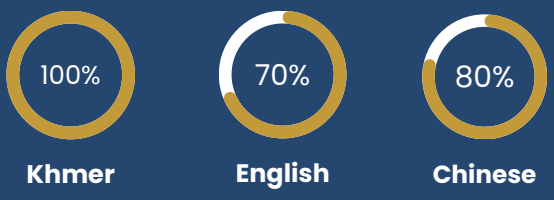

Key Contributions:

- *Developed responsive mobile interfaces.*
- *Implemented core banking features and state management.*
- *Organized reusable components, services and application themes.*

- *Built RESTful APIs and integrated OCR for extracting text from documents and images.*
- *Managed chatbot and OCR databases, including validation, authentication, testing, and performance improvement.*

- **FREELANCER PROJECT**
  Software Developer
  2026 - Current
  Project
  - *Windows Application*
  - *E-Commerce Platform*
  - *Mobile Banking Application*
  - *Social Media Application*
  - *E-Learning Platform*
  - *School Management Platform*
  - *ERPNext Configuration*
  - *Chatbot and OCR System*
  - *Inventory Management System*
  - *LCS Logistics Management System*

- *reach.makara@aub.edu.kh*

PROJECT2: MOBILE BANKING APPLICATION

- ***Technologies Used:*** *Flutter, Dart, Provider and Image Picker*
- ***Description:*** *Developed a modern Cambodian mobile banking application with authentication, account management, transfers, bill payments, transaction history, card management, QR scanning and exchange-rate features.*
- ***GitHub Repository:*** *https://github.com/Kimheang-code-IT/banking_app*

Key Contributions:

- *Developed the admin dashboard and public website using Nuxt.js, TypeScript, Nuxt UI and Tailwind CSS.*
- *Built RESTful APIs with FastAPI and managed PostgreSQL data using SQLAlchemy and Alembic.*
- *Implemented authentication, background jobs, reporting, Telegram integration and production deployment with Docker and Nginx.*

PROJECT3: AI CHATBOT AND OCR SYSTEM

- ***Technologies Used:*** *Vue.js, Vuetify, FastAPI, Python, RESTful APIs and Database Management*
- ***Description:*** *Developed an AI chatbot system with OCR functionality for extracting text from uploaded documents and images.*
- ***GitHub Repository:***
  - *https://github.com/Sovandeth0063/chatbot_review*
  - *https://github.com/KosalChansothay/trade-ocr-pipeline*

Key Contributions:

- *Designed the chatbot interface, system architecture and conversation workflow.*
- *Built FastAPI services connecting the chatbot, OCR pipeline and database.*
- *Processed uploaded trade documents, extracted text and stored chatbot conversations and OCR results.*
